## About Me

I am an IT professional passionate about the field of data analytics. I feel comfortable coding in languages such as Python, R and SQL. Also, I have solid experience using spreadsheet software and BI tools such as Microsoft Power BI. I've been working in international teams for the last 6 years, this has helped me to develop my skills to adapt to continuously changing environments and challenges.

## E-Learning.

- [Google Data Analytics Program](#).
- [Data Science Fundamentals with Python and SQL](#).
- [Python For Everybody](#).
- [Introduction to R](#).
- [Database Design](#).
- [Google Analytics Essentials](#).
- [Power BI Essentials](#).
- [Power BI Advanced](#).
- [Power BI: Data Modeling With DAX](#).
- [Big Data Fundamentals](#).
- [Probability and Statistics](#).

## Education.

- **Bachelor degree in Psychology** (2010 – 2014), Universidad de Ecatepec.
- **IT Technician** (2005 – 2008), Colegio de Estudios Científicos y Tecnológicos del Estado de México (CECyTEM) Plantel Ecatepec 1.

## Work Experience.

- **Coderhouse.**
  - Time lapse:: October, 2022 to present.
  - Position: Tutor.
  - About the role: Helping Coderhouse students to develop new skills by providing feedback and guidance on their projects.
- **Integon Service Co.**
  - Time lapse: May, 2022 to Present.
  - Position: Data Analyst.
  - About the role: Automate ETL processes, automate report creation, reconcile data between different sources.
  - Achievements: Contribute to create a solid and reliable system capable of automating accounting reports.
- **Quadient (GMC Software).** CSM Organization.
  - Time lapse: May, 2019 to February, 2022.
  - Position: Software Support Analyst.
  - About the role: Resolve in a timely manner system issues affecting our customers CCM solutions, these problems were mostly related to: databases, networks, algorithms, etc.
  - Achievements: Become main POC for cases related to the company's cloud solution. During this time, I had the chance to build Power BI dashboards useful for the management team.
